

CEIT-0010-2020

CANTERBURY EARTHQUAKES INSURANCE
TRIBUNAL ACT 2019

G

AND

EQC

AND

SR

R. Turner and M. Roche, for EQC

DECISION OF C D BOYS (NO 4)

[1] This application has largely been resolved, however there remains a relatively small but important matter of damage caused by repairers contracted to EQC. The extent of the consequential damage and the cost to repair it was in dispute.

[2] Prior to today's case management conference, the parties had agreed a settlement figure on an *ex gratia* basis (the Settlement Figure). Both sides made compromises to enable settlement, however, the terms of the proposed settlement agreement are not acceptable to G and are not open to change by EQC.

[3] This issue is genuinely in dispute. The parties have asked that I record the fact of the settlement, although not the sum, in the form of a decision finalising the application.

[4] I make the following orders:

- (a) EQC will pay G the Settlement figure recorded in my minute of today's date, within 7 days; and
- (b) This application is concluded.

A handwritten signature in blue ink, appearing to read 'Chris Boyd'.
